EGR 345 HW 5: Bode System ID

Problem Statement

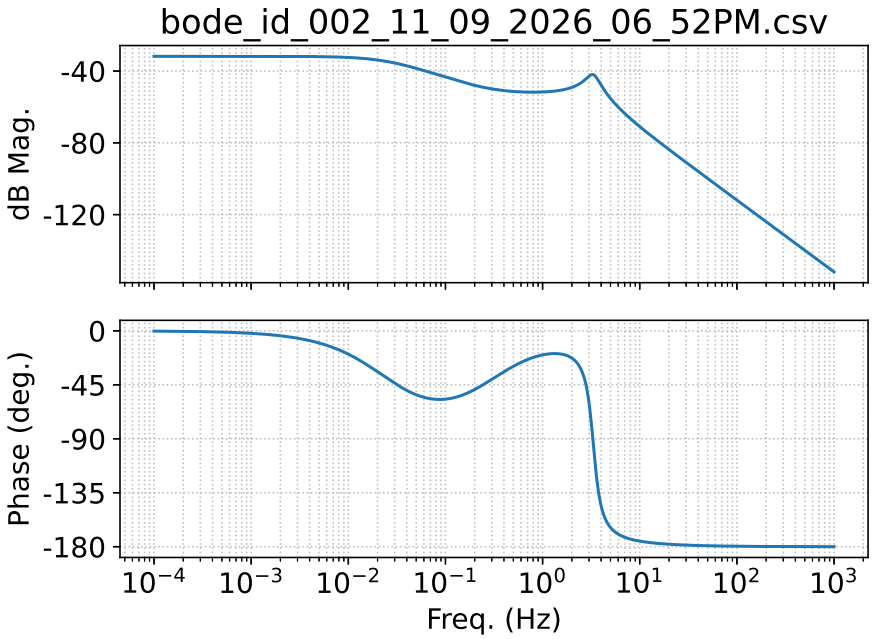

For each of the Bode plots below:

- find the poles and zeros of the transfer functions "by hand"
- write the form of the transfer function "by hand"
- verify your TF by overlaying its Bode plot with the corresponding `*.csv` file using the command `rbg.plot_bode_from_csv(filename.csv)`
  - download the `*.csv` files from the github or google drive HW 5 folder
