Big Picture from Lecture 1

- what was the plan I laid out?
- how are we doing?

Course Plans

- two DOF MSD (today)
- pole locations (Thursday and always)
- kick-off semester projects (lab this week)
- start Bode (lecture next week)
- pendulum Bode system ID (lab next week)
- beam Bode system ID (lab soon)
- intro to feedback control
- vibration suppression control

Two Degree of Freedom MSD Systems

- how do we find the transfer function(s) for this system?
 - how many TFs do we need?
