

Quiz 1 Topics

Chapter 2: Laplace

- using Laplace to solve differential equations
- finding transfer functions
- impulse and step response
- partial fraction expansion
- pole locations (not really)

Chapter 3: MSD

- definitions:
 - ζ
 - b_{cr}
 - ω_n
 - ω_d
- impulse and step response of MSD systems

Overly Nice for Quiz 1

- I will give you a transfer function
- you will be asked for the impulse and/or step response
